14:30	QUESTIONS AND PANEL DISCUSSION	
15:00	<i>Close</i>	

KEYNOTE SPEAKERS:

Liz Bromley

Liz Bromley is UCLan's Joint Institutional Lead / Deputy Vice-Chancellor, having joined the University in September 2016 after four years as Registrar and Secretary of Goldsmiths, University of London.

Liz shares responsibility for ensuring that the business and standards of the University are sustainable and well managed. As Accountable Officer she is responsible for the ongoing good relationship with the regulator, the Office for Students. As well as being responsible for corporate activities, Liz continues to have direct responsibility for delivering the Internationalisation Strategy, for Finance, and for Marketing & Communications.

Mark Drane

Mark founded [Urban Habitats](#) as a petri-dish for practice alongside his doctoral research at the [WHO Collaborating Centre for Healthy Urban Environments](#), UWE Bristol. Urban Habitats has a [vision](#) to unite a research evidence base and design practice to support communities and organisations to create health.

Mark originally trained as an architect then spent 15 years working with education and healthcare organisations including the higher education sector internationally trying to persuade them the last thing they needed was a new building...at least not till they had found out what their communities of learners, staff, and others really needed and had demand for.

The physical environment is a fantastic resource nonetheless and choreographed well it can support good health or conspire against it.

Michael Ahern

Michael is Chief Operating Officer for UCLan and has extensive experience of designing and delivering strategic and operational change programmes both within business information systems and in a wider business context.

Michael has led the creation and delivery of the University's £250m Masterplan since its inception. He is also responsible for the creation and delivery of the University Regional Strategy and the University One Health Strategy, chairs UCLan's Healthy & Sustainable University Group, and oversees Estates Services, Student Services and Learning & Information Services.

Prof. Mark Dooris

Mark is Professor in Health & Sustainability and Director of the Healthy & Sustainable Settings Unit at the UCLan. He has a background in health promotion, public health, community development and environmental policy – and has worked within the health service, voluntary sector, local government and higher education.

Mark is Chair of the [International Health Promoting Universities & Colleges Steering Group](#), Co-Chair/Co-ordinator of the [UK Healthy Universities Network](#), Chair of [UCLan's Healthy University](#) Steering Group and from 2016-17 was a member of Universities UK's Mental Health in Higher Education Working Group. He is also a member of the Food Research Collaboration's Advisory Board and the Sustainable Food North West Research Collaboration.

From 2007-2011, he chaired the International Union for Health Promotion and Education's Global Working Group on Healthy Settings and from 2011-2014 was responsible for co-ordination of the UK Healthy Cities Network and operational delivery of the WHO Collaborating Centre for Health in Prisons.

Sharon Doherty

Sharon is based in the Healthy & Sustainable Settings Development Unit, at the University of Central Lancashire in Preston. She has worked at UCLan for fifteen years and her role is Healthy University Co-ordinator, currently sharing the role as a job share. Her post combines the co-ordination of the [UCLan's Healthy University](#) initiative with a wider development role, supporting the unit's generic work across settings and contributing to research, lecturing, evaluation, training and consultancy. She has experience of working in public health/health promotion for over twenty-five years. Previous posts include, Sexual Health Lead, Healthy School Co-ordinator and Health Promotion Specialist for Young People and Sexual Health. Her public health work has focused on sexual health, drugs issues, young people within the education setting. Sharon studied Communication Studies (BA) at Sheffield Hallam University and Health Promotion (MA) at the University of Central Lancashire. She has previously worked as a Further Education lecturer in Communication & Media Studies and as an Arts Administrator/Project Manager with a community based theatre company specializing in health work.

Dr Jamie Anderson

Jamie is passionate about creating and using strong urban wellbeing evidence, working in separate part-time positions at University of Manchester and within BuroHappold's sustainability team.

In a research capacity, building on his inter-disciplinary PhD at Cambridge University, he leads a 5-year evaluation of neighbourhood greening interventions. The European [GrowGreen](#) project involves embracing the inherent complexity of this science, partnering with the local community, designers, local authority, and third sector organisations.

As a practitioner, Jamie co-leads BuroHappold's 'evidence informed' wellbeing design approach. He is fortunate to have worked with amongst the most progressive clients and collaborators in the UK and internationally. Recent highlights include C40's [BUCA](#) (Benefits of Urban Climate Action) project, the [Wellbeing Lab](#) with UKGBC and Marks & Spencer, [International Quarter London](#) public realm design for Lendlease, a county-wide [sustainability plan](#) for the Los Angeles government, and [CUSSH](#) (Complex Urban Systems for Sustainability and Health) – working with policy makers in low, middle and high income countries.
